To All Shippers of Cream

For your convenience and in order to insure that your cream will be kept in first class preservation between the time of arrival at the shipping station and delivery on the train, we have installed an ice cold cooling system, where your cream will be kept without the least fear of deterioration. We might state that this is a method that is approved by the Dairy Inspector as a sanitary and reliable way of preserving the essential qualities of your cream.

Local Happenings

Monitor Sports Day, June 30.

The St. Laurence W. A. will meet (D. V.) Thursday May 18 at the home of Mrs. Weed.

Taylor—On Saturday, May 13th, to W. T. and Mrs. Taylor, a son.

L. O. Gould returned home, last Saturday, after undergoing several weeks medical treatment at the Col. Belcher Hospital, Calgary.

Mrs. R. S. Meiklejohn, Consort, has been spending a few days with her mother, Mrs. G. Marshman.

Practically all the country schools, in this district, have reopened for the summer term.

The Monitor Orchestra will give a Dance, in the Big Hall, tomorrow night, Friday the 19th.

E. Thurston, of Souris, Man., and Reg. Gladden, of Norfolk Eng., uncle and cousin, respectively, of Mrs. H. L. Crisp were visitors here for a few days.

Dr. and Mrs. Mason left on Wednesday for Rowley, Alta., where they will reside in the future.

The local ball team will play at Compeer on Sunday.

Stonelaw U. F. A.

Will meet at Minor School on Saturday night, May 27th at 7.30. Details for the picnic will be discussed. Anyone having received a lease from a Mortgage Co. please do not sign it until you have attended this meeting, as this has turned out to be a serious affair for those signing such leases.

DIP YOUR STOCK

The Stewart Municipal Vat at the Seeman Farm will be open for dipping on Thursday, June 1st. Bring along your cattle and dip them, whether you have the price or not, as the liquid will only spoil if it is not used up. Dipping June 1st

Baseball, Horse and Pony Races, Track and Field Events, will be some of the attractions on June 30th, when Monitor will hold its annual Sports Day.

The Mother's Day Services on the Monitor Mission, on Sunday last, were splendidly attended at all appointments in spite of the unsettled weather conditions and the muddy roads. At Creek Valley service the school children efficiently contributed a special chorus, and at the afternoon service Mrs. Cockton, organist at Horse Shoe, acceptably rendered a special offertory number. The singing at both services was hearty and congregational.

The evening service was again unique in its special attractions an artistically flower-bedecked Church and a splendid choir of mothers. The entire service was helpful and inspirational and much credit is due to the leadership of the mothers in the singing. The decorative committee. The text for the evening was John 19: 25 (first ten words).

Sunday, May 21st, will be another special day in the Co-operative Church. It marks the first anniversary of the dedication of the Church, and the special evening service will be held by Rev. A. Sutherland, Presbyterian minister at Consort. Special singing is promised and the Church will again be beautifully decorated with flowers. The service will do you good and you are heartily welcome. Come and worship!

OBITUARY

The death of A. D. Young, of Sounding Lake, occurred on Monday morning May 15th at the Consort Hospital. He had not been in the best of health, for some time, and was taken to the hospital just the day before he passed away.

Mr. Young was one of the early settlers near the Lake, coming to this district in 1910. He was born in May 1852, at Belvedere, Ill., and leaves two sisters and a brother, in California, to mourn his loss.

The funeral was held yesterday afternoon, service being held in the Co-operative Church Rev. E. Davidge officiating. The pallbearers were Messrs Horsch Lewis, McCulloch and Steen.

The funeral was well attended showing the esteem in which the deceased was held.

The Girls defeated the Boys, 8 to 5, on the local diamond last evening. Johnny Duchuck has the makings of a big-league umpire, when he grows up.

NOTICE

To the Ratepayers of the Monitor School District
A 10% discount will be given for payment of 1922 taxes on or before May 22nd, 1922. Make payments at Canadian Bank of Commerce.
Monitor School Board

TENDERS WANTED

The Board of Trade is asking for tenders for the Booths, and other concessions, for Monitor Sports Day, on the grounds. Tenders must be in by June 15th.

Address to Secty, Board of Trade

WANTED

Wanted, a farm hand at once. Wages \$10.00 per month. Apply to H. J. McIntire Monitor

STRAYED

1 black Gelding, 3 years old, star in forehead, enlarged navel. 1 bay gelding, 3 yrs old, star in forehead, 1 hind foot white. Both horses weigh about 1100 lbs. 1 iron-grey mare, 4 yrs old, 800 lbs, last year's colt at side.
J. R. Moore Kirriemuir

LAND FOR SALE

THE SOLDIER SETTLEMENT BOARD OF CANADA

Offers for Sale by Public Tender: South West Quarter (SW 1/4) of Section Thirty-six (36) Township Thirty-three Range Six (6) West of the Fourth Meridian.

The terms of sale are 20% of the purchase price in cash on acceptance of the tender, the balance in not more than nine equal, annual instalments, with interest at 6% per annum.

Each tender must be accompanied by an accepted cheque for 10% of the tender offered. This amount will be applied on the 20% if the tender is accepted.

In the event of a tender of a returned soldier being accepted, no advances will be granted him for Stock or Permanent Improvements under The Soldier Settlement Act, 1919.

Tenders will be opened Thursday, May 25th, 1922.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned, the Board will be prepared to receive tenders to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes marked "Tender for the purchase of W 1/4 36-33-6-W4" and addressed to:

The District Superintendent, SOLDIER SETTLEMENT BOARD, Calgary, Alta.

Dated at Calgary, Alberta, this Ninth day of May, 1922

Freight Rates And Business

A special committee of the House of Commons has been appointed to study the whole question of freight rates with a view to bringing about a reduction in the existing high schedule, which it is generally agreed, is having a detrimental effect on business, is operating to prevent a revival in industrial activity, and is particularly paralyzing Western agriculture.

The problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one. The National Railways badly need every dollar of revenue they can get, and a substantial reduction in freight charges may prove a very serious matter for them. Yet anything less than a substantial cut will be quite ineffective in providing a much needed stimulus to business and an appreciable aid to the farmers of the country.

There is, however, much force in the argument that a lowering in the carrying charges of the railways will not necessarily mean a reduction in net revenue earned. On the contrary, it is well within the realms of probability that the result would be an increase in revenue. Present rates are perilously close to the line where they amount to actual prohibition of traffic, and if reduction of rates has the effect of stimulating business and thereby increasing traffic the earnings of the railways may easily record increases rather than the much feared decreases.

Support for this view is found in a comparative study of the figures of revenue and expenditure of Canadian railways for the years 1920 and 1921. Freight rates were increased in September, 1920, and partly reduced in January, 1921, and in December, 1921. If the arguments of those opposed to rate reductions is good, then the deficits in operation of the railways should have been greater in 1921 than in 1920. Yet the reverse was the case. The deficit on the old Canadian Northern system was nearly \$16,000,000 less in 1921 than in the previous year; the deficit on what are known as the Canadian Government Railways, chiefly the Intercolonial, was almost cut in two, being reduced by \$5,000,000; the Grand Trunk Pacific, which showed a loss of \$10,000,000 in 1920, dropped to just under \$4,000,000 in 1921.

These three roads between them showed a deficit in operation for 1921 of something over \$16,000,000 where in 1920 the total was over \$37,000,000. The operating profit of the old Grand Trunk was increased and so, too, was that of the Canadian Pacific.

Of course, there may have been, and undoubtedly were, other factors contributing to the betterments shown. Nevertheless, the figures would seem to point to the conclusion that rate reductions were not in themselves disastrous, but that, on the contrary, they proved beneficial and were contributing factors in bringing about a marked improvement in railway finances.

Admitting, however, for the sake of argument that substantial rate reductions will result in an increase in the operating deficit of the Canadian National Railways, the question arises whether it would not be better to face that possibility and meet the loss out of general taxation for a year or two if, through such reduction in rates, there was marked encouragement given to agriculture, manufacturing and business generally throughout the Dominion, with a consequent lessening in unemployment and increased buying power by the people and some return of prosperity.

The present deficit on the Canadian National Railways is a heavy one, and constitutes a very real burden for Canadian taxpayers. It is almost more than they can bear, because, through lack of employment and general business depression, they have not the money. No matter how tight taxes may be people cannot pay them without money and in the absence of means of earning money. But with a return of business activity and more employment the people would be able to more easily pay even somewhat heavier taxes, if necessary, to meet a slightly larger railway deficit.

The railways are one of the chief agencies in the upbuilding of trade and commerce, and if their rates are maintained at a level so high as to restrict traffic, they are not benefiting either themselves, or the people and country they were created to serve, but are, as a matter of fact, killing the goose that lays the golden eggs.

The experiment of enforcing a substantial reduction in freight rates as a means of reviving business throughout Canada, and giving some much needed encouragement to agricultural production, may well be tried at this time.

Japan Buying Lumber

Japanese Government Bans Production of Lumber from Native Forests

According to Mr. J. Sato, of Kobe, who arrived in Victoria with a party of Japanese lumber and pulpwood buyers, said to represent \$35,000,000, Japan is to make an unprecedented demand for Vancouver Island lumber this year. The principal reason for this heavy foreign buying is that Japan has banned the production of lumber from native forests. Inquiries for almost every type of lumber have for some time been pouring into the Vancouver Island market.

ber from native forests. Inquiries for almost every type of lumber have for some time been pouring into the Vancouver Island market.

Corns Between the Toes, Painlessly Removed

A real, sure, dependable remedy that has been lifting out corns for the past fifty years will surely lift yours out. Putnam's Corn Extractor is the old reliable corn remedy—it stands the test of time and never fails, 25c everywhere.

Recalls Days of Nelson

Mary Ann Carr, Born on Nelson's Ship, is Dead at Age of 85

Mary Ann Carr, who was born in the cockpit of Nelson's ship, Victory, near the spot where the famous Admiral fell, has just died at Portmouth, at the age of 85.

Her memory of the early days aboard the ship was fresh up to within a few days of her death. She once saw a sailor flogged. The picture of the man suffering remained vivid in her mind through her long life. Only once did she see such a sight for on other occasions she was sent ashore to be spared the spectacle.

Just as there is a potential statue in every block of marble, so is there an ideal self in every man. Be, then, the sculptor of your own character.

Keep Minard's Liniment in the house

Overcrowded Britain

An eminent statesman reminded me the other day that in spite of the war the population of Britain has increased by 2,000,000 during the last decade. He asked me whether I thought the country could support them all, and I replied in the negative, suggesting that emigration is the only remedy. The trouble is that our surplus is among townspeople and not the rural workers needed by new countries.—London Sunday Pictorial.

A NERVOUS BREAKDOWN

When the Blood is Out of Order the Nerves Are Starved

The nerve system is the governing system of the whole body, controlling the heart, lungs, digestion and brain; so it is not surprising that nervous disturbances cause acute distress. The first stages of nervous debility are noted by irritability and restlessness, in which the victims seem to be oppressed by their nerves. The matter requires immediate attention, for nothing but suitable treatment will prevent a breakdown. The victim, however, need not despair, for even severe nervous disorders may be relieved by improving the condition of the blood. It is because Dr. Williams' Pink Pills enrich the blood that this medicine has proved beneficial in nervous disorders. The nerves thrive on the better blood "made" by these pills; the appetite improves, indigestion is better, sleeplessness no longer troubles the nervous system, and life generally takes on a cheery aspect. The value of these pills in cases of this kind is shown by the experience of Mrs. John W. Macdonald, Cardington, P.E.I., who says: "I have much cause to be grateful to Dr. Williams' Pink Pills. I was suffering from nervous breakdown, and my condition gave alarm to both my friends and myself. I suffered almost continuously from nervous headaches, my appetite was poor, I hardly got any sleep, and in every way I was badly run down. A friend advised me to try Dr. Williams' Pink Pills, and after I had taken them for a while there was noticeable improvement in my condition. I continued using the pills until I had taken twelve boxes, when every symptom of the trouble was gone, and I have since enjoyed the best of health."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or ten boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The chief supply of the blue turquoise is drawn from the peninsula of Sinai, the great mining district of the ancient Egyptians.

Worms are encouraged by morbid conditions of the stomach and bowels, so a subliminal mind how tight taxes will alter these conditions almost immediately; and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

The region about the Dead Sea is one of the hottest places on the globe, and the sea loses many tons of water a day by evaporation.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh of the Urinary Tract, etc. We do not recommend it for any other disease.

HALL'S CATARRH MEDICINE is a liquid, taken internally, and acts through the blood upon the mucous surfaces of the system, thus reducing the inflammation, and assisting Nature in restoring normal conditions.

All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Alberta Agricultural Production

The estimated value of agricultural and livestock products produced in Alberta in 1921 was \$137,455,706. Of this sum grains, fodders and vegetables accounted for \$82,795,290; animals slaughtered and sold \$17,290,416; dairy products, \$25,500,000; wool \$300,000; game furs, etc., \$1,500,000; poultry and poultry products, \$8,470,000; and horticultural products and garden stuff, \$1,600,000.

Constipation Is Relieved

Prompt—Permanent—Relief

CARTER'S LITTLE LIVER PILLS rarely fail. Purely vegetable—act surely but gently on the liver.

Relieve after dinner distress—relieve indigestion—improve the complexion—brighten the eyes.

Small Pill—Small Dose—Small Price

Canadian National Excursions

Plan Your Summer Trip—Via the National Route

The Canadian National Railways announce their summer excursion rates to the Pacific Coast and to Eastern Canada. The Pacific Coast trip through the Canadian Rockies, includes choice of route on land and sea, going or returning. A magnificent 750 mile voyage between Prince Rupert, Vancouver, Jasper, and Seattle may be taken. The trip to Eastern Canada includes all rail and lake and rail, with choice of routes. See Toronto, Quaint Quebec, the Thousand Islands, and the magnificent Niagara Falls. Sail down the St. Lawrence.

The Canadian National trains cross the Rockies at the lowest altitude, the easiest gradients, and in view of Canada's highest peaks. Break your journey and stay at Jasper Park Lodge, Lake Beauvert, Jasper, Alta. The lodge is open from June 15th to Sept. 15th. It is modern in every respect, has a dancing pavilion, and commands a wonderful view of all the prominent mountain peaks. On your trip to the East, have your travel plans include a few days at "Minaiki Inn," 115 miles east of Winnipeg. Decide now to take a holiday. You owe it to yourself and family. Get suggestions and full information as to fares, reservations, train service, etc., from any Canadian National Agent. Ask for free tourist booklets.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will strengthen the nervous system, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damang, Young's Cove Road, N.B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at night, and my appetite was poor. A neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50c per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Farmer Premiers

Five of the Provincial Premiers Are Farmers by Occupation

When the Premier of Manitoba makes the point that he is a farmer he calls attention to the fact that farmer premiers are quite common in Canada. Leaders of the Ontario and Alberta Governments are farmers both politically and by occupation. The Premiers of Manitoba and British Columbia are Liberals in politics and farmers by occupation. The Premier of Saskatchewan is a farmer in politics and as down in the Parliamentary Guide as a farmer by occupation. This accounts for five of the nine provincial premiers. Three of the others are lawyers, and the fourth a merchant.—Vancouver Province.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the home, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil feed, it is a cattle affected by colic it far surpasses anything that can be administered.

Growth of Canadian Industry

Illustrating the growth of the manufacturing industry in Canada, J. S. McKinnon, president of the Canadian Manufacturers' Association, stated that Canada's exports of manufactured goods represented in value \$47 per head of population, whilst the export of United States manufactured goods represented \$50 per head of population.

Ask for Minard's and take no other

Mrs. Edmonds Makes Gain Of Fifteen Pounds

"I Honestly Believe Tanlac Saved Her Life," Declares Husband In Remarkable Statement Praising Master Medicine.

"The way Tanlac has restored my wife's health and built her up makes me one of the happiest men in Canada," said Wm. A. Edmonds, 298 King Edward St., Winnipeg.

"Two years ago her health began failing and she suffered terribly from indigestion, gas on the stomach and heart palpitation. Her head and back pained her continually and she had nervous spells when she would shake like a leaf. Finally her strength left her entirely and she was confined to her bed for one solid year. 'Everything possible was done for her and almost as a last resort, I had her try Tanlac. After taking it awhile she began to improve, and today her health is fully restored. She is not only in splendid health, but she has gained fifteen pounds in weight. I honestly believe Tanlac saved her life, and I am more than grateful.' Tanlac is sold by all good druggists.

Wishes Lloyd George Success

Failure Means War for Europe Says Gen. Smuts

Lieut.-Gen. Jan C. Smuts, Premier of the Union of South Africa, in a statement to the Cape Times on the subject of the Genoa conference said he prayed for victory for Lloyd George, for if all that resulted from the conference was the Russo-German treaty and the division of Europe into two armed camps, Europe would irrevocably split and Genoa would become a new and fatal milestone in European policy.

General Smuts said that if the faith of France and Russia in militarism prevails against the desire of Britain, former neutrals and many late enemies for disarmament, then the policy for disarmament, which Britain is adopting on land and sea, would yet prove a fatal blunder and it were far better for Britain to face realities at once and arm in her turn.

Unless Lloyd George could succeed in modifying the militarist policy of Poincare and Chitcharin, disarmament must disappear throughout Europe. Armageddon would become the only goal of western civilization.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes and the nail, without soreness or irritation.

Chinese Guarded Silk Secret

For centuries after its first discovery China carefully preserved the secret of silk culture, and amassed great wealth by exporting it to India, Persia and Arabia.

Labor Saving Devices Make For Efficiency, But Kill Individuality

Complaint is made that it is almost impossible to obtain competent watch repairers, the reason being that time pieces are now so largely made by machinery, that it is no one man's business to know all the ins and outs of the delicate mechanism contained therein. So it is that watches, which if properly repaired by competent workmen, would last two or three generations as our father's time pieces did, are now after a few years thrown into the discard and new ones purchased. On the other hand, we have this to counterbalance it. Cheap watches that the old hand made days, and incidentally more money to buy them with. Whether or not the machine-made watch is as good a time piece as the machine-made article we will allow others to judge.

In any event what is happenings in respect to watches and watch repairers is going on in nearly all other industries. Take the shoemaker. The old boy who made shoes a generation ago, all by hand, and took an intelligent pride in his craftsmanship, is now about as scarce as the wild pigeon. Possibly he may be still found in the back concessions somewhere, but even that is to be doubted. The modern shoemaker works in a factory. He does one job on a pair of shoes, and probably does it very well. But bless your heart, that is about all he can do.

In the same way the old-time iron worker. He was more often just a plain blacksmith plus brains and art sufficient to turn you out a beautiful pair of wrought fire dogs. But alas, he is also becoming ever more scarce. And from are now stamped out in a big factory from a scale pattern. They are machine-made, and they look it. The same thing applies to the printing trade. In the old days a boy went into a printing office when his comparatively short school days were over. He started at the bottom, and he learned every trick of the craft, from making-printer's rollers out of sticky composition, to setting type, to handling job forms, to general make-up, and so on through the shop press room and all, until he knew every detail, from beginning to end. Now, however, you have linotype hands, and make-up hands, and press feeders and press men, with here and there a job hand, and mighty few of them know anything of the other man's work.

All this, of course, is efficiency stuff. It runs through all industry. It may be rank heresy, but in my humble opinion it also makes work gray and uninteresting. A man in this office puts a stock of envelopes into a feeder, sees that his form is adjusted and pulls a lever. Away they go, eight or nine thousand an hour. All the workman has to do is to keep the ink feeding properly, and the maw of the machine filled with material. The machine does the rest.

Take that price of craftsmen, the carpenter who has graduated into a cabinet maker. He still exists. I am glad to say, but ever in diminishing numbers. Take the furniture he made years ago and compare it with the machine stuff of today. See how the drawers move in the old-time pieces, and how it holds together in spite of our over-heated, dried-out homes. There is joy in the work of the cabinet maker who sees the artistic results as they grow under his hands bit by bit. But how of the joy of the factory where you shove a board in at one end of a complicated machine to see it arrive at the other end of the completed northeast side of a cabinet, going west.

Of course this is all part of an old-fashioned idea that there is joy in work. Something beyond the mere stipend that one receives for his labors. But there is also this thought, that while we have gained in production, in cheapness and all that, we have at the same time lost something through the introduction of labor-saving devices, a thing that we will never have again. And that is individuality.—From the Toronto Saturday Night.

Instead of doing things today, the wise man did them yesterday.

Prairie Province Horticulture

Tests Made of Fruits and Flowers at Dominion Experimental Farms

The cultivation of fruit and flowers in the prairie provinces is beset by more difficulties than in the eastern provinces and in British Columbia.

However, as the provinces become more settled, protection is to some extent provided against the sweeping winds. In many places, trees are now being planted as windbreaks. At all the Dominion Experimental Farms and Stations some attention is paid both to fruit and flower growing. At Brandon, Man., the average yield from six bushes of Magnus black currant for three years was 13 lbs. 15 oz., and from Kerry 31 lbs. Red Cross currants gave an average yield from six bushes in the same time of 20 lbs. 8 oz., and Large White currants an average yield from six bushes of 11 lbs. 13 oz. Gooseberries, raspberries and strawberries are also included in the tests and promise well. Attempts to produce a hardy standard apple have not hitherto proved successful, but several varieties of crab apple are yielding abundantly. Several hardy varieties of plums are also doing fairly well. Many perennial flowering plants do well, as do tulips and similar bulbs.

At Brandon, Man., too, ornamental grounds are maintained and give a deal of information to visitors. Tree fruits have not had much success at the Lacombe, Alberta, experimental station, but good results have been obtained with small fruits, including red and black currants, raspberries, gooseberries and strawberries. Many ornamental trees and shrubs and various varieties of perennials are successful there, as well as at the Scott, Saskatchewan, station. No success has been met with apples, but Manitoba plums, brought from Brandon, have thriven. Caragana hedges at Scott have furnished good protection to bush fruits. Black, red and white currants have all proved vigorous. Eclipse and Topsy the best in black currants, Red Cross and Ruby Castle in red, and White Cherry in white.

Houghton gooseberries, Sunbeam raspberries and Dakota strawberries have yielded good crops and other varieties of the same fruits have not done badly. Much valuable information could be obtained by growers by applying to the nearest experimental farm or experimental station, or to the Publications Branch, Ottawa, for copies of the superintendents' reports.

Canadians Did Regular Fighting

Comparison Made on Record in Last Hundred Days of the War

While military defence was under discussion in the House of Commons, Brigadier-General J. A. Clark (Conservative, Burrard, B.C.), compared the work accomplished by the Canadian and United States forces in the last one hundred days of the war, to show how Canadian forces had been benefited by actual war experience.

The United States, said the General, entered the war three years after Canada and therefore was not able to make the showing Canada did. During the last one hundred days the United States had 650,000 men in action and Canada 105,000.

United States troops were engaged for twenty-seven days and Canadian troops for one hundred days. United States battle casualties numbered approximately 100,000, and Canada's approximately 45,000 during the period.

United States troops captured 16,000 prisoners, and Canadian troops 35,500. United States troops captured 486 guns, as compared with 623 by the Canadians; 2,864 machine guns, as compared with 2,842 by the Canadians; 177 trench mortars, as compared with 236. During the last one hundred days, United States troops freed 610 square miles and Canadian troops 500 square miles. Americans advanced 34 miles, as compared with 86 miles advanced by Canadians.

General Clark drew the comparison to show how Canadian forces had been benefited by actual war experience.

Money for Roads

Of the \$2,035,532 voted by the Saskatchewan Legislature for public improvements for 1922, approximately \$1,570,000 will be spent on roads and large capital bridges this season. It has been announced by J. C. Gardiner, Provincial Minister of Highways. This expenditure will be apportioned as follows: Roads constructed under the Federal aid scheme, \$900,000; large steel and concrete bridges, \$120,000; main market roads, \$550,000.

Pimzie and the Lost Hermit Crab.

LAST week's story told you of Pimzie's enjoyment as he lay in less than an inch of water amongst the pools between the low tide rocks and of his great enjoyment in watching the numerous Hermit Crabs darting here and there, having perfectly awful misadventures; and of one particular crab that, having lost his shell (Pimzie mischievously having taken it away), was hustling around trying to find another one through theft or murder, or any way possible.

Have you ever lain among the sandy spots that are exposed at low water and watched the tiny creatures left there by the receding sea? I have, and I soon learned what great fun it is.

I have stayed for hours, or to be quite exact, until the morning tide has sent me home and have been held perfectly fascinated all these hours by the comedies and tragedies that I have watched as they unfolded before me. Try it some time and write me what you have seen and learned.

In the pool where Pimzie lurked, he saw so many Hermit Crabs that he even fired up races and, placing several in line, he bet to himself on which of them would reach a certain place first. He saw the little naked Hermit (whose shell he had hidden) rush madly up to several other Hermits who were the pleased possessors of comfortable shells of their own and try to fight them out. Pimzie also noticed that he had no luck and scuttled around more madly than ever; after each unsuccessful attempt on his stronger neighbors.

Oh! How Pimzie enjoyed it! Finally he decided to put the shell he had hidden back in the exact spot where he had found it, and see what would happen.

I don't know whether it was instinct or what you would call it, but the moment the shell was placed there its owner seemed to know it and hustled back just as fast as he could hustle.

He backed up to it and shoved himself in, back first. Once in, what a difference in his whole appearance! Instead of the cringing, frightened, timid little thing he had been, he suddenly became the boldest of the bold. Sticking his forelegs out of the opening of his own beloved and recovered shell, he flashed his sparkling eyes and waved his paws around in ever so threatening a manner, looking for all the world like the lord and master of his own castle. "What a rather shell!" which is exactly what he was. "Was ever so bold NOW!" he completely forgot that he had lost his shell, and he was so bold that he was only too glad to once more be back in it! His whole attitude was different. His bodies are totally bare and unprotected, so that they must in all necessity find empty and abandoned ones to inhabit. If they can't find empty ones they try to fight out the rightful owners. . . . therefore, all the battles.

Pimzie certainly enjoyed himself! What small boy does not enjoy a fight?

Americans Gain New Insight Into The Status Of The Commonwealth Of Australia

"Looking Backward"

Some of Bellamy's Predictions Come True Sooner than Expected

When Edward Bellamy, 38 years old, wrote his fascinating prophecy, "Looking Backward" from the year 2000, people gasped at the daring while appreciating his imagination. In one astounding chapter the "Rip Van-Winkle" of the narrative is taken to the music room, where he is asked to make known his choice from a very long 24-hour music programme. He indicates an organ piece; his hostess "made me sit down comfortably, and, crossing the room, so far as I could see, merely touched one or two screws, and at once the room was filled with the music of a grand organ anthem."

Such an incredibly prophecy that the Bellamy work was classified in the libraries as "fiction," and no speedily has scientific development occurred that in many libraries it is still "fiction." Yet this is only 1922, not 2000; and by the time the Bellamy era of prediction is reached, who dares to foretell the achievements of men.—The Detroit News.

Cabinet Ministers' Religion

Personnel and Religion of All Members of the Dominion Cabinet

The personnel of the King cabinet and the religion of each member are as follows:

Hon. W. L. Mackenzie King, Premier, Presbyterian; Hon. W. S. Fielding, finance, Baptist; Hon. G. P. Graham, militia and defense, Methodist; Hon. Charles Murphy, postmaster-general, Roman Catholic; Hon. H. S. Beland, health, etc., Roman Catholic; Hon. J. H. King, public works, Baptist; Sir Lomer Gouin, justice, Roman Catholic; Hon. Jacques Bureau, customs, Roman Catholic; Hon. Ernest Lapointe, marine and fisheries, Roman Catholic; Hon. D. D. Mackenzie, solicitor-general, Presbyterian; Hon. J. A. Robb, trade and commerce, Presbyterian; Hon. Arthur B. Copp, secretary of state, Presbyterian; Hon. W. C. Kennedy, railways and canals, Roman Catholic; Hon. Charles Stewart, interior, Church of England; Hon. W. R. Motherwell, agriculture, Presbyterian; Hon. James Murdoch, labor, Methodist; Hon. John E. Sinclair, without portfolio, Presbyterian; Hon. Thomas A. Low, without portfolio, Methodist; and Hon. Raoul Dandurand, without portfolio, Roman Catholic.

H. B. Co. to Enter Siberia

Will Open Up Virgin Territory for Trading

The Siberian venture of the Hudson's Bay Company this year is one of great magnitude, and one entire wharf in Vancouver is piled high with trade goods and supplies. Two Hudson Bay steamers are now loading, another will load later in the season, and two others will pick up their cargoes in Japan, making five ships in all. They are taking every conceivable variety of goods from apples to zithers. The two vessels now loading will go to Anadir, Siberian headquarters of the company. The Lady Kindersley sailing from here in June, will go first to Coronation Gulf and Herschel Island near the mouth of Mackenzie River, and will then proceed to Anadir.

Besides a number of launches, cut to fit storehouses and residences, and enormous quantities of food are being sent aboard the vessels now loading. The launches will penetrate hundreds of miles up the Siberian rivers where a virgin territory will be opened up.

Lumber Production Value

Figures recently issued by the Dominion Bureau of Statistics show that the 1920 lumber production in Canada was valued at \$1,815,393, as compared with \$225,252,975 in 1919. Of the 1920 total sawn lumber accounted for \$168,368,437; lath, \$5,248,579; shingles, \$14,695,159; other mill products, \$7,496,706; and forest products, \$116,006,112. Cedar, spruce, Douglas fir, white pine, birch, maple and hemlock were the most important woods used.

These are the days when the American people are learning geography, and must continue to learn it if they are to prosper and keep their place in the world. We are just beginning to absorb the geography of the Pacific, thanks to the Washington conference; but many of us still have a confused mental picture of as important a factor in the Pacific as Australia. We rather picture it as a bush-grown desert island inhabited by soldiers with brim-tipped Stetson hats, naked blackfellows and kangaroos.

This impression has been absolutely changed for those who heard Senator George Foster Pearce, Australian delegate to the Arms Conference, address the great banquet of the English-speaking Union at the Drake. Senator Pearce portrayed his country as another big English-speaking commonwealth fronting on the United States, with the same lack of international covetousness, and the same ambition to maintain peace and the status quo.

Australia is a vast island, 97 per cent of size of the continental United States. Its lucky number seems to be 97, for 97 per cent of its population of 5,500,000 souls are of English descent. It is therefore a great unsettled country, thinly populated by English-speaking white men. It is rich in resources, and vigorous in its national life; its mobilized troops in the late war numbered close to half a million, of whom 300,000 went overseas and 50,000 were killed. It is a determined scrap community, with which no one not prepared for big trouble would be apt to take any liberties.

The Australian commonwealth though part of the British Empire, is a self-governing democracy more dominated by labor than any other British dominion. Senator Pearce, who, though a comparatively young man, must be counted one of her elder statesmen, having been a member of the Dominion Senate since its founding in 1901, began his working life as a carpenter, and was afterward an organizer of defense, then his name for secretary of war and the navy combined, has acted as head of the Government in the absence of Premier Hughes, and has represented Australia at the Washington conference. Over here we wouldn't trust a carpenter so far.

This power wants stability in the Pacific, just as we do and Canada does. Its great open spaces are only a few days sailing from the crowded hordes of Asia, but are five weeks from Great Britain. The Australians and Canadians are our kind of people, with problems like America's and with the same desire for peace and steadiness in which to work them out. These commonwealths are more and more dominating British policy in the Pacific and will continue to do so. It is therefore very largely with them that we are asked to co-operate in the Washington treaties. If we can't trust democracies of "regular fellows" like ourselves, we must make up our minds to draw our head into our shell and live the life of a turtle.—Chicago Evening Post.

Asleep at the Switch

A man who believed he knew all about parrots undertook to teach what he thought to be a young mute bird to say "Hello!" in one lesson. Going up to its cage, he repeated that word in a clear voice for several minutes, the parrot paying not the slightest attention. At the final "Hello!" the bird opened one eye, gazed at the man and snapped out, "Line's busy!"

But Not Vice Versa

When Little Percival arrived at school on the opening day, he carried the following note to the teacher:

"Dear Teacher: Our sweet little Percival is a very delicate, nervous child, and if he is naughty—and he is likely to be naughty at times—just punish the boy next to him, and that will frighten him so he'll be good."

Jack Spratt could eat no fat; his wife could eat no lean. You see, they spent their money for the flimsy gasoline.—Fresno Republican.

Stops Bronchitis Quickly, Helps Irritable Throat, Ends Sneezing, Coughing

Relief comes at once when you breathe in the soothing vapor of Catarrhoxone. Once its healing, piney essences strike the bronchial tubes, you realize that a powerful treatment is at work. Irritation can't live in the throat of a person inhaling Catarrhoxone. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhoxone strengthens the weak throat, stops the cough, removes that hacking irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real friend. For coughs, colds, catarrh and winter chills, nothing in the family could be better than the complete dollar outfit. Small size 50c, trial size 25c, all dealers or the Catarrhoxone Co., Montreal.

MY CANADA

— BY —
ELINOR MARSDEN ELLIOT

Published by Special Arrangement
with the Author

(Continued)

III. Winnipeg.

June 5th, 19—

I have just returned from a shopping expedition taken in company with Mrs. Arnold and Mary. I really needed nothing, but they told me that shopping in Winnipeg is as interesting, as instructive, and almost as expensive as European travel, so of course I went with them.

We went first of all to the Hudson's Bay Stores. Fresh from the reading of Agnes C. Laut's "Lords of the North," I was rather disappointed to see an up-to-date departmental store where I had more than half expected to find a log fort with cannon guarding the gates.

However, Mary, who under a mixture of prosaic common-sense and irresponsible nonsense is blessed (?) with a romantic temperament, tells me that there is an indescribable but unmistakable characteristic atmosphere in all Hudson's Bay Stores, whether they be of the modern or of the pioneer type. This, she explains, is due to the peculiar odour that is found in them all, an odour of smoketanned leather, fish, and the home-made tobacco smoked by the Indians and half-breeds.

"You may laugh if you please," she said in response to Mrs. Arnold's unbelieving smile, "but I am sure that if I blindfolded, could pick out a Hudson's Bay Store at a hundred yards! I have been in five, and the same perfume—to be polite—hangs over them all. I like it, but I can imagine that

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearse, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and they strengthened and built up my system splendidly, completely relieving the pain in my head."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

W. N. U. 1420

to the uninitiated it might be anything but pleasant."

Probably the damp climate of England has blunted my sense of smell. At any rate, I was not able to reconstruct the old fur-trading days on the strength of it.

From the Hudson's Bay we went to Eaton's—a truly marvelous shop where one can buy anything from a super of pins to a motor car. But the most interesting thing I saw was the promised substitute for European travel; this was a party of Gallician women, in their native costume, who gathered around a bargain counter on which was displayed "Canadian clothes" of the most violent colours. One smart maiden, who had evidently been in Canada for some time, was acting as guide and interpreter to her country cousins, and I could not but help notice how much nicer the others looked than she. Mrs. Sophistication wore a very tight skirt, a bright purple blouse with a very low Dutch neck and very short sleeves, and I am sure that her hat was trimmed by a landscape gardener. But I suppose she felt happy in the knowledge that she no longer looked the peasant—and perhaps the next generation will learn to choose clothes to suit their short, squat figures and broad faces.

I know that I am committing a platitude when I speak of Winnipeg as a cosmopolitan city. Perhaps it is better to quote Mary again, and say that the hardest thing to find in Winnipeg is a Canadian.

In addition to the immigrants from the British Isles, one sees on the street various tribes, or clans, or whatever the proper term is, from Russia: French, Germans; Italians in great numbers, who are, according to Mr. Arnold, excellent citizens—no "Black Hand" outrages here; Chinese men and boys; Jewish rabbis in their ceremonial dress; Greek Church dignitaries—everything, in fact, but the coloured, he-is-to-em-and-blacked child Red Indian, whom I quite expected to meet at every turn. I have not yet seen an Indian.

But I have wandered a long way from Eaton's. After Mrs. Arnold had finished her shopping, we went up to the lunch counter, that is one of the most peculiar features of the "big store," and there Mr. Arnold met us and we all had luncheon together.

Mr. Arnold had brought with him a young, a very young, Englishman, Mr. Hoyt, and I shall never again be surprised that the English are not always popular in Canada. Mr. Hoyt was with us for an hour, and during that time he never spoke but to criticize Canada, its people, its customs, its climate, its architecture—even the luncheon we were eating! He is only a boy, and he is evidently very homesick, but he might have had the good taste to consider the Arnolds, and to keep his grumbling for the ears of his countrymen. Only once he had the grace to look thoroughly ashamed of himself.

"Canadians!" he had sneered, "there is no such thing as a Canadian, unless one happens to be an Indian. You are all either English or Irish or Scotch or—"

Perced at Mr. Hoyt's Mary broke in, "you call yourself English, and yet you told me that your grand-parents were German. My grand-parents, all four of them, were born in Canada. Why may I not call myself a Canadian?"

Well done, Mary. I must say that the loyalty of the Canadian-born to Canada came as a surprise to me. We in the Old Land too often look upon the colonies merely as a place in which one can make enough money to live upon at home. Canadians, on the other hand, are loyal to the Empire, to the British Constitution—whatever it is—loyal to the traditions of their forefathers, but what for lack of a better name I shall call their "personal loyalty" belongs to the land of their birth.

Perhaps I can give no better example of this than Mr. Arnold. I was with him a great deal when he was in England, and I am ashamed to say that he knows a great deal more of Britain's history and legend than I do. And yet last week I saw that grey-haired man stand speechless and bare-headed before the little monument that marks the grave of the Winnipeggers who fell in the North-West Rebellion—raw volunteers who by their gallant and fearless conduct won from the enemy the name by which the 90th Regiment is still affectionately known, "The Little Black Devils."

I suppose that not one person out of a thousand at home has so much as heard of the North-West Rebellion. I was one of the nine hundred and ninety-nine; but I realize now that Canada has earned her right to a place among the nations—not independent of the Motherland, but in her dependence owing a distinct personality. As Mary quoted to-day,

"A Nation spoke to a Nation,
And a Queen sent word to a Throne,
'Daughter am I in my Mother's house
But mistress in my own.'"

(To be continued)

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far ahead enough to attest its excellence, for in all these countries it is on sale and in demand.

Oxygen breathed in by any person can be measured by a newly designed apparatus.

MAGIC BAKING POWDER

Guaranteed to be the purest and best baking powder possible to produce. Because of the purity and high quality of the ingredients of Magic Baking Powder its leavening qualities are perfect and it is therefore economical.

E.W. GILLET COMPANY LIMITED
WINNIPEG TORONTO, CANADA MONTREAL

Alberta School Lands
Since 1905, the Federal Government has sold a total of 951,000 acres of school-lands in the province of Alberta, realizing \$12,204,000. This money is held in trust for the province.

He Is Satisfied With the Results

THAT'S WHY HE PRAISES DODD'S KIDNEY PILLS

Quebec Man Who Suffered from Bright's Disease, Diabetes and Backache Gave a Thorough Trial to Dodd's Kidney Pills.

St. Prosper, Dorchester Co., Que.—(Special).—Mr. Joseph Larochelle, well known and highly respected here, is telling all his friends of the satisfaction he got from the use of Dodd's Kidney Pills.

"I suffered for many years from Bright's disease, diabetes, backache and headache," Mr. Larochelle states. "I took from 10 to 15 boxes of Dodd's Kidney Pills."

"I can tell you I am satisfied with the results. I advise all who use Dodd's Kidney Pills to take enough to make them well."

Dodd's Kidney Pills have been in use in Canada for more than a quarter of a century. They are known by the good they have done.

Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

Countries would not be so anxious to enter war if it was operated on the pay-as-you-enter plan.

Over 500 tons of flowers are sent annually from the Sicily Islands.

300 R.

A Combination Of Straw And Feathers

A crown of straw, a brim of feathers, in loosely drawn strands, make up this charming little hat, which is sure to enhance the charms of the most beautiful face. It is a decidedly stunning model and one that will find favor in the eyes of most women. The disk of straw which adorns the peak makes it distinctly Russian in mode.

Engage in Business Enterprise
Western Canada women are continually finding novel outlets for the expression of that new independence the war gave them. The Ladies' Touring Cars, Ltd., capitalized at \$20,000, has just been incorporated at Vancouver, the Hon. Mary Ellen Smith, member of the provincial cabinet, being president. The company directors and employees are all women who have driven motor cars overseas, and they will cater to women tourists to the city and district.

Lord Northcliffe Says Embargo On Cattle An Insult To Canada

London.—Declaring that he was very glad that he declined to become a member of the Coalition Government of Great Britain, it only because he would not want to be "one of those who helped to begin the end of the British Empire by losing the prairie provinces of Canada," Lord Northcliffe devoted the greater part of an address at a luncheon of the Empire Press Union to condemning the "great slur we place upon the people of Canada" by the embargo on the importation of Canadian store cattle. Lord Northcliffe is honorary-treasurer of the Empire Press Union.

Lord Northcliffe said: "We are not watching Canada closely enough, especially as to what is happening in the prairie provinces. One of the cleverest men I ever met, Lord Shaghnessy, said to me 20 years ago: 'I wonder if I am right in thinking that the future of the empire is largely wrapped up in what happens in Alberta and Saskatchewan.'"

Continuing, Lord Northcliffe said: "I don't blame the British people for not giving attention to Canadian affairs. If I were issuing papers in New York—which God forbid—I should not give much attention to affairs in Australia or New Zealand, but should concentrate, as the American papers now very largely do, on the more interesting foreign affairs of the moment. Englishmen often very frankly say they are bored with this matter of the great slur we place upon the people of Canada by reason of the embargo on their cattle. One or two public men, Lord Beaverbrook in particular, have realized this problem. I have not his knowledge of Canada, though I certainly share his admiration for Canada."

"Canadians are not a very noisy people. We did not hear much about them going into the war, but they went in, and when there, they did great things. They are not talking very much about the embargo, except in the prairie provinces, which are far removed from Montreal and other great news centres."

"I assure you that while you can say to Canadians: 'You shall not enter our house; you cannot say to them: you shall not enter because you have a loathsome disease.' I have talked about this repeatedly with English stock breeders. It is purely a question of protection. Formerly it was a concession to the Irish, but it is no longer an Irish question at all. This thing affects the reputation of every Canadian farmer."

English Second Official Language

London.—The assembly of the International Institute of Agriculture has decided to adopt English as the second official language for the institute's bulletin, says Reuters's Rome correspondent. Crop reports will be distributed by telegraph to the various countries that are members of the institute.

Peace Negotiations Fail

Dublin.—The peace committee of the Irish Bireann, which has been making efforts to find a ground upon which the factions in Ireland could unite, has failed to reach a basis for a settlement it has been announced.

Floods Cause Immense Damage

Assiniboine River Overflows Banks and Ruins Crops

Winnipeg.—Heavy rains have contributed to a further rise of the Assiniboine River and protecting dykes along its banks have been swept away and the water is now creeping over thousands of seeded acres hitherto out of danger.

A fleet of flat boats has been put into operation in the Poplar Point area, and farmers are paddling to and from town releasing many persons who had been marooned in the upper stories of their homes. Four thousand acres of seeded land is now under water there. Farmers in many districts are driving their cattle to the bush and removing their valuables to safe spots in the hills.

For a 12-mile strip, three miles wide, the river has overflowed its banks at Iberville. Huterites, living in this district, are leaving their homes and seeking shelter in the highlands near Marquette. With the help of nearby farmers they have driven their cattle to the hills. The prospective crop estimated at \$500,000 has been washed away, 40 sections of seeded land being inundated.

Bringing Big Sugar Shipment to Canada

Cargo of 6,600 Tons Largest Ever Shipped from Jamaica

Kingston, Jamaica.—The Canadian Pacific steamer Montezuma sailed for Montreal with 6,600 tons of sugar, the largest cargo of sugar ever shipped from this island. To date Canada has purchased over 75 per cent. of the sugar crop of Jamaica.

About a year ago Canada extended to Jamaica a customs preference similar to that granted to other portions of the British West Indies some years ago. During the first nine months of the Canadian preference, imports of Jamaica-coffee and cocoa trebled, grapefruit quadrupled, spices, hides and skins doubled, while vegetable oils increased fourteen fold and raw sugar went up 4,000,000 pounds. About six weeks ago the Jamaica Legislature ratified a measure granting a customs preference on Canadian products, but the preference in most cases is only five per cent.

For Peace of Europe

Closing the Ranks Against Tyranny of Brute Force, Says Lloyd George

London.—Premier Lloyd George has sent the following telegram to the Congressional Union of England and Wales, in response to the Union's message to him assuring him of the organization's sympathy and support in his efforts to secure the peace of Europe.

"The humanitarian forces of the world are closing their ranks in the new crusade against the tyranny of brute force. Genoa has sounded the tocsin of peace. We shall not rest until we have won."

WESTERN EDITORS

VIOLENT STORM IN EASTERN MANITOBA

CYCLONIC WIND CAUSES GREAT DAMAGE TO DISTRICT EAST OF WINNIPEG

Winnipeg.—Striking Manitoba at a point near Gino, about 30 miles east of Winnipeg, a cyclone swept farm barns from their foundations, wrecked a number of houses, blew down transmission towers of the Winnipeg Electric Company and the city hydro system, causing Winnipeg to be entirely without electric power for two hours; took down telegraph wires on both the Canadian Pacific and Canadian National systems, isolating the city from Eastern Canada by telegraphic communication for several hours and caused damage generally which will run into many thousands of dollars.

Reports state that several persons had been injured, but no fatalities were caused so far as could be ascertained.

Regina Coat of Arms

Presented to Liner

City Approves Selection of Name for New Steamship

Montreal.—Mayor James Grassick, of Regina, presented the White Star Dominion liner Regina with a replica of the city's coat of arms at a luncheon aboard the new passenger liner. Nearly three hundred agents and friends of the company were entertained.

P. G. Ward, representing Premier C. A. Dunning of Saskatchewan, and C. A. Cook, manager and secretary of the Regina Board of Trade, were also present, and together with the mayor voiced the city's appreciation of the selection of her name for the new vessel.

Increase in Food Prices

Washington.—An upward trend in the retail cost of food was noted in statistics made public by the Bureau of Labor Statistics of the Department of Labor. Reports from 15 cities showed increases from March 15 to April 15, ranging up to three per cent, while only four reported decreases and only one of these, Fall River, with two per cent, showing more than one-half of one per cent. decline.

Will Accompany "Better Bull" Train

Moose Jaw.—Edward Evans, manager of the Southern Saskatchewan Stockyards, has been requested by Hon. C. M. Hamilton, Minister of Agriculture, to accompany the "better bull" train which will commence a tour of the province from Moose Jaw on May 29.

Fill Vacancy in Supreme Court

Ottawa.—It was announced by the department of Justice that David A. MacDonald, K.C., of Vancouver, has been appointed to be a judge of the Supreme Court of British Columbia. The appointment fills the vacancy caused by the death of Mr. Justice Clement.

Spend your money at home, thereby helping your own town and local merchants.

W. N. U. 1420

Britain Still Hopes That Peace In Ireland May Be Restored

Vancouver Wants Drydock

Essential to City's Progress Opinion of Board of Trade

Vancouver.—As the result of action taken at a special meeting of the Board of Trade here, at which it was the unanimous opinion that a drydock for Vancouver is essential to the future progress of the city, a telegram was sent to the Government at Ottawa by President R. Kerr Houlgate, urging the Federal authorities to continue the subsidy to the drydock here as arranged for by the late Government, so that the work of construction can be proceeded with.

Prime Minister Mackenzie King is also being informed that the board is arranging a mass meeting of all the municipalities and organizations in the lower mainland of the province to discuss plans for further efforts toward securing a drydock for this port.

Will Surmount Difficulties

King Assures Belgium of British Empire's Sympathy

Brussels.—King Albert gave a banquet in the palace to King George and Queen Mary. In toasting his royal visitors, King Albert said Belgium still was suffering from the destruction and the economic troubles caused by the war. The king added that Belgium needs at the same time, reparations, peace, work and security, a complex necessity which had determined the policy Belgium had resolved to pursue in full agreement with her allies.

Replying, King George said if there was one thing certain in the uncertain epoch which the world was passing, it was that the difficulties of Belgium could rapidly be surmounted, thanks to the wisdom of Belgian statesmen and the indomitable vitality of the Belgian people. He added that in her progress towards the great future ahead of her, Belgium always would have the sympathy of the British Empire, which fought beside her in the war.

Krupps Entitled to Royalties

Washington.—The American Government finds itself under the revived patent treaty with Germany faced with the necessity of paying royalties which may reach \$5,000,000 to the Krupps firm on patents based on discoveries of American engineers, Thomas W. Miller, alien property custodian, declared.

Will Not Fight Unless Compelled

Tien Tsin.—Chang Tso Lin, the defeated Manchurian General, is reported to have fled to Dairen. Observers say his troops have established three lines of trenches this side of Luanchow, on the Mukden railway south of the Great Wall, but will only fight if General Wu Pei-fu's forces press them too hard.

London.—The Government was again sharply attacked in the House of Commons for failing to protect the three British officers recently kidnapped in Ireland. Austen Chamberlain, the Government leader, replying, repeated that General Sir Nevil Macready, the British commander in Ireland, had seen representatives of both parties but they had all assured him they knew nothing about the incident although they were doing their utmost to ascertain the facts of the case.

Mr. Chamberlain admitted that a grave issue was before the House—whether the Government should decide that the experiment in Ireland had been tried long enough and whether the Government, acting under a sense of horror at certain murders should declare the treaty at an end and step in and assume once more the duty of preserving law and order throughout Ireland. He had thought deeply about these outrages but begged parliament to think of the larger issue, and even amid the pain and anguish of these incidents keep their eyes fixed on the great result which might yet be obtained and which would mean accession of unity and strength to the empire.

Mr. Chamberlain appealed earnestly for a continuance of the experiment. He believed that the power and influence of the provisional government were increasing and that, given a little time, the provisional government would secure a mandate from the Irish people and establish its authority throughout the 26 counties.

"For heaven's sake," Mr. Chamberlain continued, "after the bitter experience of the past, let us give the provisional government a chance. We shall not save the lives of loyal subjects in Ireland by assuming what must be civil war that could only end in subjection, not in reconciliation."

The motion for adjournment on which the debate was raised, was defeated 258 to 64.

King George Eulogises Heroism of Nurse

Deposits Wreath on Spot Where Edith Cavell Was Executed

Brussels.—The heroism and self-sacrifice of Edith Cavell were extolled by King George of Great Britain who with Queen Mary is here for a state visit to King Albert and Queen Elizabeth of Belgium. The British King laid a wreath of entwined Belgium, French and British flags upon the spot where the British nurse, a large number of Frenchmen, and three Belgians, were executed during the war by the Germans.

As he deposited the wreath, King George said Mrs. Cavell left the world an imperishable legacy of courage and devotion which had a counterpart in the martyrdom of Joan of Arc.

Note and Comment

A bachelor was asked to give his opinion on modern dress. He said: "I have nothing to say." Looks like a pretty comprehensive opinion at that.

According to the style plates of a hundred years ago, the fair young thing in her crinolines looked as if she was trying to climb out of a balloon. Nowadays the illusion is reversed. The up-to-date flapper looks as if she is trying to drop out of one, and somebody stuck a pin in it.

Rings on her fingers, bells on her toes,
She wears little else wherever she goes.

This year a lot of people who bought a supply of potatoes last fall find that they could have bought them cheaper during the winter. So next year they will not buy their potatoes in the fall, and they will find that they will be dearer in the winter. It's a great life if you don't weaken.—Exc.

The total number of quarter-sections of Crown land still available in each township is shown on the 1921 edition of a Land map of Manitoba, Saskatchewan and Alberta recently issued by the Department of the Interior, likewise the number of quarter-sections of unoccupied and uncultivated lands held in private ownership that are purchasable from the non-resident owner. This latter feature, showing at a glance what lands are for sale, should prove of great service to the land seeker. Supplementary to the map, the Department has compiled for each district, lists containing information as to the price asked for the land, terms of sale, nature of soil, acreage fit for cultivation, value of buildings and other matters helpful to the prospective purchaser. With such information in his possession the intending settler may then negotiate with the owner of the land.

Another important feature of the map is the Railway Belt information which has been shown in three different shades of color on each side of all railway lines, to signify land within 5, 10 or 15 miles of a railway. Among other details shown are the Dominion Parks, the forest reserves, land districts and agencies, surveyed townships, and railway information to date. A copy of the map, also a list of the unoccupied lands for sale in any particular district may be obtained free of charge, upon application to the

Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

Railway News
in Brief

St. John.—While crossing from Gothenburg to London, in order to join the Canadian Pacific lines "Melita" at Liverpool, a Swede named Mr. Peter Hendricksen, a widower, fell in love with Mrs. Marzetti Crami, a widow, who was accompanied by her two daughters. Who are also proceeding to Canada. Within twenty-four hours of arrival in Liverpool a special license was obtained and the marriage took place at the Brownlow-hill Registry Office. Mrs. Crami's age was given as 35, while Mr. Hendricksen is 38. The honeymoon was spent crossing the Atlantic on the "Melita," and the happy party is settling at Minnedosa, Manitoba, where the bridegroom has a farm. Both bride and bridegroom are of Swedish nationality.

Vancouver.—Mr. H. J. Loughran, who is in charge of the farm land department of the Canadian Pacific Railway at Vancouver, reports that business was very satisfactory during the year and prospects are better than ever for this season.

During the year there were received at the office 6,820 enquiries directly to the farming land timber, and general conditions in British Columbia and the prairies.

Sales were made directly and indirectly to 200 parties, of whom eighty were single men and the remainder men with families. About 170,000 acres of land were disposed of at an average price of \$18 per acre, about \$234,600 of property being sold.

During the past two months the company has been advertising Columbia Valley lands, as a result of which 397 enquiries have been received and forty applications for land made.

With the intention of still further popularizing the St. Lawrence route to Europe the Canadian Pacific Railway has instituted a greatly improved service in the matter of train connections of Canada Pacific with Grand Pacific Steamers at the ports of Montreal and Quebec. Under this arrangement which is made possible by the direct line of railway and ocean lines, passengers from Vancouver and intermediate points bound for Europe are practically guaranteed an uninterrupted journey to their destination.

For some years Canadian steamships have been sailing at 10 a.m. Passengers travelling by afternoon trains from Detroit and Toronto, and by night trains from Hamilton and Toronto (Yonge Street Station) both due at Montreal at 8 a.m. have connected with steamships sailing from Montreal at 10 a.m., or with the steamship seasonal leaving Montreal at 9 a.m. for Quebec. Under the new arrangement this guarantee of connection with steamships is extended more surely to travellers from points farther west. If any of the trains from western points bearing steamship passengers are delayed in arrival at Montreal, the steamships will be held two hours, if by so doing the passengers can embark at that point. If the delay is longer, the steamship will proceed to Quebec and there await the delayed passengers. Every effort will be made to have these trains connect with the steamships at Montreal but if there are any chance prevented from so doing or do not connect with the steamship special from Montreal to Quebec, the Company will arrange transportation from Montreal to Quebec for passengers booked to sail from Montreal. Attendants will meet trains at Windsor Street Station, Montreal, to assist passengers in transferring to the steamships; or if sailing from Quebec, to assist their transfer to the train that is to carry them to the steamship dock at the latter port.

DOCTOR'S DAUGHTER'S STORY.

Another Toronto home provides evidence of how a simple cut, scratch or bruise, may pave the way to deadly blood-poison. Doesn't it show there is a vital need for keeping a reliable antiseptic like ram-buk, always handy?

When called upon at 8, Rushness Avenue, Mrs. J. E. Zealley, daughter of the late Dr. Levon, of St. David's, S. Wales, said:—"My boy Alfred watched a nany with the brass tag of a shoe lace. A nany poisoned rose developed and it defied all the usual ointments. Hearing splendid reports about ram-buk I decided to give it a trial. To my great relief, the pain soon caused healing to set in. All inflammation and poisonous matter was quickly removed by ram-buk. It healed the rose without leaving a scar. "Again when I fell over steel fence and injured my knee badly, ram-buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to ram-buk, and it cleaned and healed the wound in a few days. I could easily believe for eczema, pimples, cuts, burns, etc."

WORLD HAPPENINGS BRIEFLY TOLD

Goods in kind to the value of 80,000,000 gold marks were delivered to the allies by Germany during the first three months of the present year.

Winter wheat production in the United States this year was forecast at 584,793,000 bushels by the Department of Agriculture, which announced the condition of the crop on May 1 as 83.5 per cent. normal.

James R. Davis, Federal Prohibition Director for Michigan, has asked headquarters at Washington for three motor boats of high speed to aid in curtailing liquor traffic on the Detroit River.

The University of Saskatchewan is experimenting with a scheme for domesticating the buffalo. Buffaloes in the Canadian parks are increasing so rapidly that they will soon be on the market for food.

Over 50,000 Government employees in France are being dismissed for reasons of economy. The wholesale dismissals will mean a saving of 200,000,000 francs. Most of those dismissed were taken on as auxiliary servants in the war period.

Something of a sensation has been caused by the announcement of Rev. G. Quinlan Warner, of Cronyn Memorial Church (Anglican), that he is calling a meeting soon for the discussion of the possibilities of a faith-healing cult.

Wizo, approximately 100 years old, known as the Queen of the Stone Reserve Indians, died near McLeod Lake, 12 miles north of Whitecourt, according to word reaching Edmonton. Her husband, who died three years ago, was believed to be 104 years old at the time of his death.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You Cannot Afford to Neglect It

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatic fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Anuric Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Anuric is the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they, too, have all been benefited by them."—Melville Collinson.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Anuric Tablets which are to be had nowadays at almost any drug store or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package and write for free, confidential medical advice.

Ways of Measuring

How Lloyd George Got Even With the Chairman

A correspondent sends us the following little anecdote illustrating Lloyd George's ready wit. On one occasion when he was to address a meeting in South Wales, the chairman, thinking to be funny at the speaker's expense, said in introducing him, "I heard so much about Mr. Lloyd George that I naturally expected to meet a big man in every sense, but, as you can see, he is very small in stature."

Lloyd George arose. "I am grieved to find," he said, "that your chairman is disappointed in my size, but this is the way you have here of measuring a man. In North Wales we measure a man from his chin up, but you evidently measure him from his chin down."

After that the chairman made no more personal remarks.

THOUSANDS CONVERTED

Through ignorance, many have suffered aches and pains long thought incurable. But doubt quickly turns to belief when sciatica, lumbago and neuralgia are healed with Nerviline. It's soothing healing powers are really wonderful. Nerviline "sinks" in quickly, it penetrates into the sore muscles and brings grateful relief. The hundred and one minor ills that come to every family find quickly to Nerviline. Try it. 35c at all dealers.

Prince Sends More Stock

Horse Valued at \$55,000 Sent to Royal Ranch in Alberta

Four pure-bred race horse stallions and five mares have recently been shipped by the Prince of Wales from England to his ranch at Beddfield, Alta., which he bought when he visited Canada in the summer of 1919. One of these stallions was purchased in England recently for \$5,000. Since His Royal Highness has had his Alberta ranch he has made several shipments of pure-bred stock from the Old Country. The last consignment of horses was sent over in charge of a special staff from one of his English farms.

SATISFIED MOTHERS

No other medicine gives the same satisfaction to mothers as to Baby's Own Tablets. They are equally good for the newborn babe or the growing child and are absolutely guaranteed to be free from opiates or other harmful drugs. They are a mild but thorough laxative and cannot possibly do harm—they always do good. Concerning them Mrs. Jos. Ache, Colosse Road, N.B., writes: "I think that Baby's Own Tablets are a marvelous medicine for little ones. I gave them to my little girl with such good results that I now strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Authors' Association

Montreal Branch Now Numbers 129 Members

The annual meeting of the Montreal branch of the Canadian Authors' Association indicates progression in both membership and influence. Among those entertained by the branch during the past year were Mr. Bliss Carman, Mrs. Nellie McClung and H. M. Meredith, son of the famous novelist, of the publishing house of Archibald Constable, London, Eng. Miss J. E. Sims, whose recent novel, "Our Little Life" has been so favorably reviewed, was elected chairman for the present year. The branch, which now numbers 129 members, will hold monthly informal meetings during the coming year.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graces' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Soldier Settlement in B. C. A total of 3,738 soldier settlers have been placed on British Columbia farms, 900 of whom have settled in the Lower Fraser Valley, according to a statement made by R. L. Ramsay, field supervisor for the Soldier Settlement Board at a meeting of agricultural officials here.

Japan has built a great arch, 60 feet high, overlooking Tokio, to commemorate those who died during the war in the service of the empire.

The Mysterious Dogs

Method Adopted by Farmer to Protect His Fruit Crop

A photograph that acts as a policeman has been kept up by a fruit farmer in the United States in his orchard.

This is the way he worked it. He rigged up an old photograph inside an unused beehive and had a record made of the fierce barking of dogs. Then he connected the machine by an electric wire with his house, which was within sight of the road. As soon as he sees an automobile stop in the road, he turns on the switch and the raiders are frightened by the barking of dogs, though they cannot see the animals.

However, the motor thieves never wait to find out where the barking is coming from.

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because it leads to indigestion, fills the system with poisons, brings on anemia. You don't need a purgative, you don't want to weaken the system by a harsh gripping medicine—what you need is mild natural stimulant to the bowels. You get just what you need in Dr. Hamilton's Pills which tones up the liver, restore the bowels to perfect action and positive by end constipation. You'll feel tip top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine. 25c at all dealers or The Catarhoxone Co., Montreal.

Low Price of Manitoba Farm Land That land in Manitoba is equal to that of soils in Illinois and Iowa, where the land is sold at \$400 an acre. is one of outstanding statements of Prof. Dracken, of the Agricultural College, in his report tabled in the Legislature. In the survey covering the Dominion the average price of Manitoba farm lands was returned at \$35.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

The Chief Dancer

"Are you going any further West?" "I planned to do so," said the foreign visitor. "Is there any danger from Indians?"

"Not if you keep out of the way of their motor cars."—Birmingham Age-Herald.

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumeden, Saskatchewan.—"My mother had taken Lydia E. Pinkham's Vegetable Compound and when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same."—Miss MAX RETZER, Lumeden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for bear in mind, it has been helping women for nearly fifty years.

Women Tell Each Other

In your own neighborhood are women who know the value of this wonderful medicine and they talk to one another about it. So if you are troubled with pains and irregularities, a tired feeling, nervous and sleepless spells, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

Save the Surface

America Spends Almost as Much on Cosmetics as on Education

The American people spend annually \$750,000,000 for face powder, cosmetics and perfumery and \$1,000,000,000 for education. It is interesting to note that the amount America spends annually for face powder and its accompaniments is almost as much as she spends for her entire educational system. Looks as if America thought about as much of the outside of her head as of the inside. And as a matter of astonishing fact, the amount actually spent by America for face paint annually exceeds all she pays for the salaries of the teachers in all the high schools who are trying to get something into the heads of pupils in between times while they are applying the paint on the surface. —The Christian Herald.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellie's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased at almost anywhere.

German Money-Makers

Presses and Engravers Inadequate to Meet Demand

A terrible tragedy has transpired in the German Government's bureau of engraving and printing. Plates cannot be engraved fast enough and presses run fast enough to turn out thousand mark paper notes. Germany's paper note printing presses have reached their physical limit and the demand for paper money still greatly exceeds the supply.

Solving the dilemma, the German Government for the first time in the history of the mark has decided to print and issue 5,000-mark notes, which are much easier manufactured than the impressive 1,000-mark bills. The new 5,000-mark notes will appear on the market in the course of the summer. Germany's largest monetary unit, the one thousand mark note, is worth at today's rate of exchange \$3.50, and the smallest paper note, that of 1 mark, is worth 2 1/2 mills.

Dye Skirt, Dress

Or Faded Draperies In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman, no matter how faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the goods to be dyed are of good cloth, silk or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Alberta as a Seed Producer

Where Oats and Other Cereals Reach State of Perfection

Alberta, it is officially stated, has supplied the rest of Canada with a half million bushels of seed oats this spring. It is equally significant that orders came from every other province in the Dominion. As a seed producer this province is only getting started, but it is getting started right, and is already securing results. Alberta oats stand in a class by themselves; no other part of the continent can produce either the quality or the quantity per acre. What is true of oats is true of other grains, and of grasses and vegetables. We may not grow here as wide a variety of crops as is possible in more southerly latitudes and lower altitudes, but what can be grown is grown to perfection. More and more the older provinces and the states will recognize that they must come to Alberta for hardy and virile seed. Much credit for what has been attained, and for the greater achievement in prospect, is due to the persistent and successful efforts which have been made by the faculty of agriculture at the University to interest Alberta farmers in seed-growing and to direct their operations in a way to build up a high reputation for their product. And the showing made last year and the year before, when Alberta exhibits carried away a good many of the coveted awards at the international hay and grain show at Chicago, has not been barren of practical results. It pays to produce the best; and then to let the world know that we have it.—Edmonton Bulletin.

A Wide-Spread War Memorial

IN memory of the war-time efforts for King and Country, of eleven thousand C.P.R. employees and more particularly of 1,115 men who gave their lives for the cause for which the British people stood, the Canadian Pacific Railway has erected at Montreal, Winnipeg, and Vancouver a striking bronze memorial group, depicting in larger than life size an Angel of Victory bearing the body of a Canadian soldier upward towards perfect peace. These statues were simultaneously unveiled on Friday, April 29th, His Excellency Lord Byng, the Governor General, officiating at the Montreal celebration.

At the same time was unveiled the bronze tablet illustrated above. Exact duplicates of this tablet were also unveiled at all important points on the C. P. R. system between the Atlantic and the Pacific, as well as at its American, European and Asiatic offices. The tablets are about five feet in width, and were designed by Archibald Pearce, of the C. P. R. Chief Engineer's Department, Montreal. The vessel on the left represents H. M. S. "Lion," Admiral Beatty's flagship at the battle of Jutland, and that on the right the Canadian Pacific Steamship "Empress of Russia," which was engaged through the war as a fast cruiser, and later as a transport. Beside her stands a standard C. P. R. locomotive and train as having just brought in battalions ready to embark for overseas service. The soldiers in the centre represents all arms of the service. The base of the statues bear the same legend as do the tablets.

Enlistments of C.P.R. employees totalled 11,340 men, of which 1,115 were killed or died of wounds, and 2,105 were wounded. A total of 7,573 were re-employed by the company on their return to Canada, following out the C.P.R. policy of re-instating every man who left, in as good a job as that which he had when he went away, and a total of 13,115 other returned soldiers have also been taken on the company's service. War decorations and medals won by C.P.R. employees totalled 370, and include the following:—

Victoria Cross, 2; Order of the British Empire, 6; Distinguished Service Order, 17; Distinguished Service Medal, 3; Military Cross, 54; Distinguished Conduct Medal, 47; Military Medal, 180.
